

## EMANZ Conference & Exhibition 2018

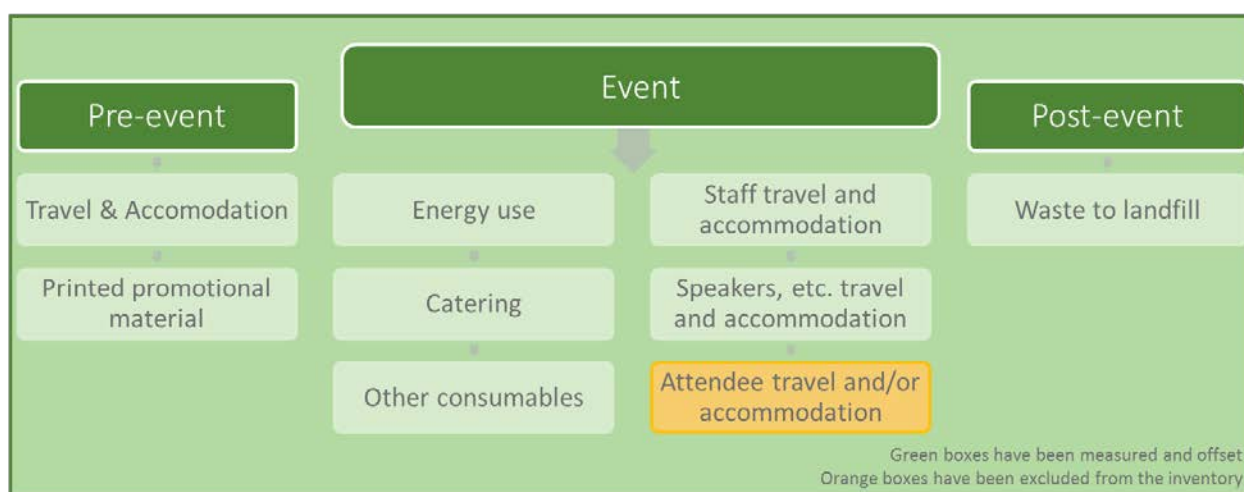

*EMANZ Conference & Exhibition 2018 meets the requirements of carboNZero<sup>Cert™</sup> event operations certification having estimated the event's life cycle emissions during the event, and neutralised the remaining unavoidable emissions, excluding attendee travel emissions, through cancellation of an appropriate number of verified carbon credits in respect of the event held at the Auckland Royal New Zealand Yacht squadron on 9 & 10 May 2018.*

**Introduction<sup>1</sup>** – The EMANZ Conference and Exhibition is a yearly event for the energy industry in New Zealand. Experts and interested parties internationally are also invited to take part in the discussions. The conference is the biggest annual gathering of practising energy specialists and an excellent opportunity to showcase energy products and services.

**Event description<sup>2</sup>** – carboNZero certified event

- Scope: “event operations” scope<sup>3</sup>
- Functional unit: CO<sub>2</sub>e per delegate at the event
- Event date: 9<sup>th</sup> and 10<sup>th</sup> of May 2018
- Number of delegates: 99 total attendees (96 attendees and 3 organisers)
- Boundaries: The measurement method follows the principles of life cycle approach focussing on the main emission sources for an event.

**Figure 1:** Emissions sources by event stage

<sup>1</sup> **Disclaimer:** This Disclosure Statement is a summary of the verified information considered for certification and the certification decision. It should not be taken to represent the full submission for certification. Whilst every effort has been made to ensure that the information in this Disclosure Statement is accurate and complete, Enviro-Mark Solutions Limited does not, to the maximum extent permitted by law, give any warranty or guarantee relating to the accuracy or reliability of the information.

<sup>2</sup> For certification, these measurements undergo an independent verification for accuracy but no assurance can be given due to the inherent uncertainty around event data.

<sup>3</sup> Certified “event operations” measures all emissions sources but does not offset those from attendee travel

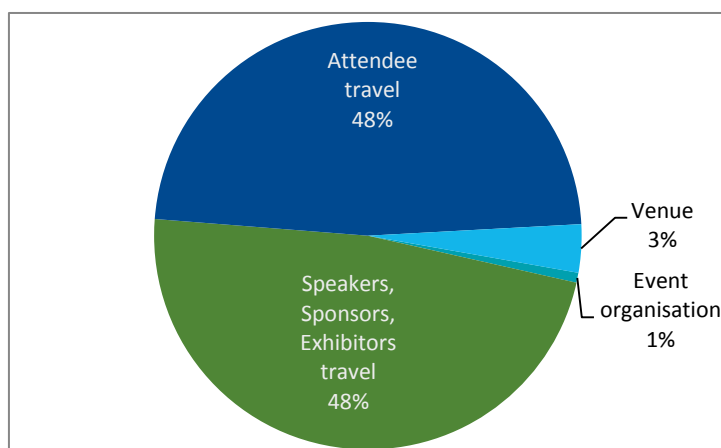

# carboNZero Post-event certified operations

## EMANZ Conference & Exhibition 2018

**GHG Emissions source inclusions** – The event’s total emissions were:

Pre-event	0.41	tCO <sub>2</sub> e
During event	53.77	tCO <sub>2</sub> e
Post-event	0	tCO <sub>2</sub> e
<b>Total:</b>	<b>54.18</b>	<b>tCO<sub>2</sub>e</b>

Emissions per functional unit: 368.59 kgCO<sub>2</sub>e per delegate at the event

**Exclusions** – The following emissions sources were excluded from the inventory for this event:

- Attendee travel as per ‘event operation’ scope
- Attendee accommodation as per ‘event operation’ scope

**Offset** – 29 Luoyang LFG Project in China credits have been cancelled on the carboNZero register and will be cancelled (or equivalent) on the relevant external registry within one month of certification. Specific details of cancellation, including serial numbers, will be available on the external registry: [www.cleanenergyregulator.gov.au/OSR/ANREU/Data-and-information](http://www.cleanenergyregulator.gov.au/OSR/ANREU/Data-and-information).

The 25.94 tonnes of emissions from attendee travel (48%) were not required to be offset as this event is being certified to a “certified event operations” scope.

**Verified by** – Enviro-Mark Solutions Limited

**Certification status** – carboNZero certified event operations

**Certificate number** – 2018078

**Valid for** – 9-10 May 2018
