

Summary of carboNZero certification:

Brother International (NZ) Limited

Year 1 of 3 Year Certificate Period

Brother International (NZ) Limited meets the requirements of carboNZero^{Cert™} certification having measured its greenhouse gas emissions in accordance with the requirements of ISO 14064-1:2006, committed to managing and reducing its emissions and neutralised its remaining unavoidable emissions through the cancellation of an appropriate number of verified carbon credits in respect of the operational activities of its organisation.

Introduction¹ – Brother has had a presence in the New Zealand market for over 50 years. In that time Brother has grown to be the leading providers of print and imaging equipment, sewing machines and labelling hardware in New Zealand. Products Brother offers include; laser printers and multi-functions, inkjet multi-function centres (MFCs), fax machines, labellers, label printers, and a wide range of home and industrial sewing machines. Brother also offer a range of cost effective lease and cost per page deals to meet the changing needs of small to medium size and corporate businesses. Brother services the retail, corporate and business to business markets.

Brother aims to fulfil its corporate social responsibilities at ever higher levels through continuous commitment to environmental challenges, to raise environmental activities to among the best in the industry, and to instil a strong sense of pride so that employees feel truly proud to be part of Brother.

Boundary – Figure 1 below shows the organisational structure used for describing the organisation's greenhouse gas (GHG) emissions inventory, and what business units were included in the inventory in the context of the entire organisational profile. The parts of the structure (business units) in blue have been identified as being within this emissions inventory. Business units excluded from the inventory are shown in green.

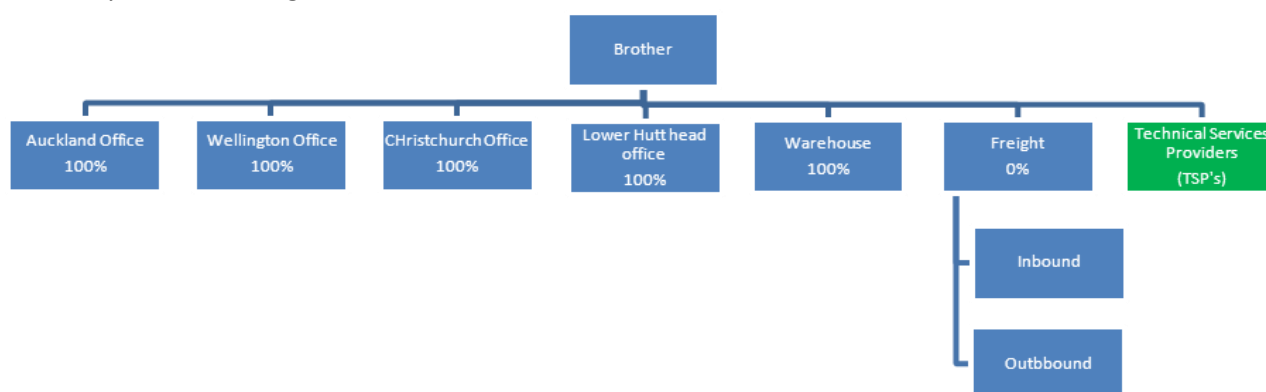

Figure 1: Organisational structure showing business units included and excluded.

Consolidation approach – The operational control consolidation approach has been used to account for operational emissions with reference to the methodology described in the GHG Protocol and ISO 14064-1:2006 standards.

¹**Disclaimer:** This Disclosure Statement is a summary of the verified information considered for certification and the certification decision. It should not be taken to represent the full submission for certification. Whilst every effort has been made to ensure that the information in this Disclosure Statement is accurate and complete, carboNZero Holdings Limited does not, to the maximum extent permitted by law, give any warranty or guarantee relating to the accuracy or reliability of the information.

Summary of carboNZero certification:

Brother International (NZ) Limited

Year 1 of 3 Year Certificate Period

Base year – 01/04/2011 to 31/03/2012

Measurement period – 01/04/2011 to 31/03/2012

Emissions source inclusions – The operational GHG emissions for the organisation by emissions source are shown in Figure 2 below.

Figure 2: GHG top 10 emissions source.

Emissions as tonnes of carbon dioxide equivalents (tCO₂e) for this period were:

Emissions by scope	tCO ₂ e
Scope 1	124.33
Scope 2	49.89
Scope 3	1,466.20
Total inventory	1,640.43

Emissions source exclusions – No emissions sources have been excluded from the GHG emissions inventory.

Emissions reduction commitments – A GHG emissions management plan and reduction targets have been developed.

Brother aims to reduce emissions of the entire group (business sites in Japan, and manufacturing and sales facilities outside Japan, except logistics) by 1% per annum (per unit of sales), by 30% from FY1990 levels at eight business sites in Japan by FY2020 (absolute value), and cutting CO₂ emissions by 20% (per per unit of sales) from FY2006 levels at manufacturing facilities outside Japan (except the USA) by FY2020.

Offset – 1641 WIND Patnaik credits, serial numbers 16005343-16006983, have been cancelled on the carboNZero register and will be cancelled (or equivalent) on the relevant external registry within one month of certification.

Verified by – carboNZero Holdings Limited

Summary of carboNZero certification:

Brother International (NZ) Limited

Year 1 of 3 Year Certificate Period

Data quality score – Good

Threshold of materiality – 5%

Level of assurance – Reasonable

Certification status – carboNZero certified organisation

Certificate number – 2013040J, Year 1 of 3 year certification period

Valid until – 22 March 2016
